July 1st Canada-Wide Protest

Protests start at **11am local time** in all major cities across Canada.

This is a non-partisan movement of Canadians from all political backgrounds united to reclaim our country from the corrupt ruling class and end corporate mass immigration. We are not anti-immigration, but oppose reckless immigration policies that depress wages, raise the cost of living, enable crime, and make society less safe for women. These policies strain our economy, healthcare, and social services without benefiting Canadians in the long run. We welcome peace-loving immigrants who came here fairly, embrace Canadian values and contribute positively to our society. While we reject the idea that Canadians are not entitled to a cultural identity, we will NOT tolerate the spreading of race-based hate at our protest. Canadians of all backgrounds and ideologies must unite for the common good. You may find yourself alongside those with differing views, but our shared love for Canada must prevail over division. Now is the time to stand together and protect what is rightfully ours.

NO HATEFUL IDEOLOGIES. REAL IMMIGRANTS WITH CANADIAN VALUES WELCOME!
